DR . A S H L E Y H O D E R S

12 pm EST/9 AM PT: Treatment planning thin tissue in the anterior mandible: Where are we now and how are things changing?

Dr. Ashley Hoders received her DMD degree from the University of Florida College of Dentistry and pursued post graduate training in Periodontics and Prosthodontics at the University of Texas in San Antonio. She is the first woman to complete this dual specialty program and is the only female in the United States to become a Diplomate and Fellow of the American Board of Periodontology as well as the American Board of Prosthodontics. She is passionate about team dentistry and enjoys serving her community through heavy involvement in study clubs. She is co-founder of SPEAR hygiene and in private practice with Dr. Jim Janakievski in Tacoma, WA.

DR . R E B E C C A B O C K O W

1 pm EST/10 AM PT: How airway affects skeletal growth and development

Dr. Rebecca Bockow is a dual trained orthodontist and periodontist. She grew up in the Greater Seattle area and attended University Prep for High School. She received a BS in Biology with Honors at Haverford College and completed her DDS training at the University of Washington Dental School in 2007. Dr. Bockow practiced as a general dentist in Seattle for two years while simultaneously teaching at the UW dental school. She completed a highly selective dual-specialty program combining Orthodontics and Periodontics at the University of Pennsylvania and is a board certified orthodontist and board certified periodontist. While simultaneously enrolled in two residency programs, she also received a Masters in Oral Biology, focusing on intranasal Ketorolac for post-operative implant pain management. Dr. Bockow lectures nationally on periodontics, orthodontics, interdisciplinary orthodontics, airway, and skeletal growth and development. She contributes to multiple professional journals as an author and editor.

DR . R U S S E L L J O H N S O N

2 pm EST/11 AM PT: Perio-Pros considerations in everyday dentistry

Dr. Russell Johnson is a Pacific Northwest native. He studied dentistry and earned his dental surgery degree from the University of Washington. Dr. Johnson then chose to continue his training, moving to San Antonio, Texas, where he completed his training as a Prosthodontist and earned a Master of Science Degree in Biomedical Science, focusing on digital and computerized dentistry. Eager to further his surgical knowledge, Dr. Johnson returned to the University of Washington and completed a 3-year Periodontics and implant surgical residency program at the University of Washington. He challenged and successfully passed both the American Board of Prosthodontics and American Board of Periodontics examinations, becoming one of the few dual-board certified specialists in the country. Dr. Johnson's free time these days is spent in quarantine and spending time with his wife and newborn baby boy. Pre-COVID they keep active traveling, running, hiking, skiing, snowshoeing and enjoying the Pacific Northwest!

Tuesday, April 28

DR. IVY FUA

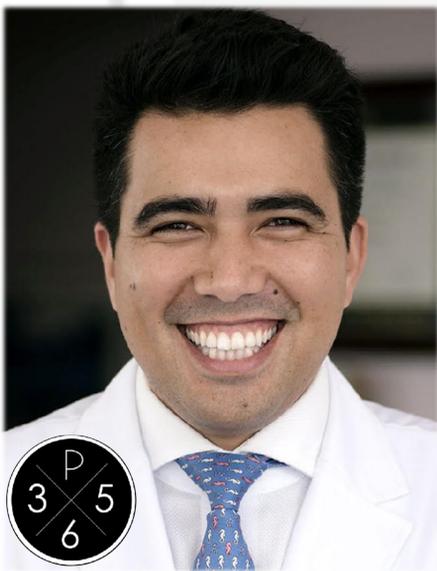

12 pm EST/9 AM PT: Management of molar incisor hypomineralization in pediatric patients

Dr. Ivy Fua is a pediatric dentist based out of Los Angeles, CA. She obtained her dental degree from UCSF where she did research on glass ionomers. She obtained her certificate in pediatric dentistry from the University of Southern California and Children's Hospital Los Angeles, followed by a certificate in California Leadership in Neurodevelopmental and Related Disabilities (CA-LEND) from USC+CHLA. Her interests include oral health education, minimally invasive dentistry, glass ionomers and increasing underrepresented minorities in dentistry. She works at CHLA and in private practice in Los Angeles, CA.

DR. ARMAND BEDROSSIAN

1 pm EST/10 AM PT: Amelogenesis Imperfecta: Treatment planning, therapy sequence and rehabilitation

Dr. Armand Bedrossian is a Prosthodontist and currently practices in his hometown of San Francisco. A native San Franciscan, he attended Cathedral School for Boys, St Ignatius College Preparatory and received his undergraduate degree from the University of San Francisco. Dr. Armand Bedrossian received his dental degree from the University of the Pacific Arthur A. Dugoni School of Dentistry in 2015. He completed a three year Masters Program in Prosthodontics at the University of Washington, where he successfully received his Master's Degree in Prosthodontics. Dr. Armand Bedrossian was also the recipient of the prestigious Dr. David H. Wands Fellowship in Graduate Prosthodontics Award. Dr. Wands, a long-time member of the graduate prosthodontics faculty at UW, established the award to support and inspire recipients to pursue an academic career in prosthodontics education. He has also authored multiple publications in peer-reviewed journals. Dr. Armand Bedrossian has also been the co-author of several chapters in textbooks, discussing the treatment planning and protocol for rehabilitating edentulous patients.

Wednesday, April 29

MR. BOBBY WILLIAMS CDT

12 pm EST/9 AM PT: Vision of today in dentistry: Clinical partnerships and the fusion of hand made with technology

Mr. Bobby Williams is a graduate of the Kois Center and attended the University of Oklahoma and followed his undergraduate studies with a dental laboratory technical school in Dallas, TX. He has over twenty five years of experience as a lab technician and owner. He has owned and operated, for the last seventeen years, a very active, high-quality, all-ceramic laboratory, Synergy Ceramics, that specializes in cosmetic restorations from single tooth to full-mouth reconstruction. He is a senior member of Claude Sieber's "Art & Experience". He lectures and teaches courses internationally on Patient Specific Abutments, Implants, porcelain and indirect composites for Atlantis Patient Specific Abutments, Dentsply Implants, 3M ESPE and Vita North America.

DR. RYAN MIZUMOTO

1 pm EST/10 AM PT: Intraoral scan bodies in implant dentistry

Dr. Ryan Mizumoto is a graduate of the Advanced Prosthodontic Program at The Ohio State University and currently maintains a private specialty practice in Columbus, OH. He has published four research manuscripts and was the 2019 recipient of the Tylman Research Award through the American Academy of Fixed Prosthodontics. Dr. Mizumoto has achieved board-certification through the American Board of Prosthodontics and is a Fellow in the American College of Prosthodontists. He is a member of the American Academy of Fixed Prosthodontics, American Academy of Cosmetic Dentistry, and the SFUMATO chapter of the Seattle Study Club. He currently serves as the Treasurer for the Boucher Prosthodontic Conference. He has lectured locally, nationally, and internationally on various topics in Prosthodontics.

DR. MICHAEL STEFFEN

2 pm EST/11 AM PT: The general dentist driving down the digital highway

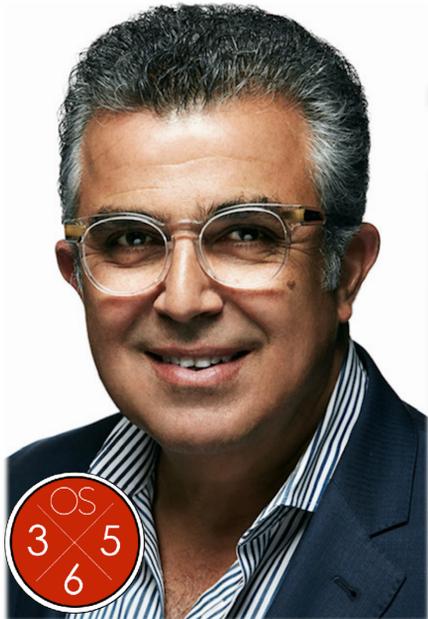

Dr. Michael Steffen received his dental training at Washington University in St. Louis. In addition to a private practice, Dr. Steffen maintains an academic presence lecturing and teaching. He currently works with many major dental companies on development of digital work-flow in the dental office, including Straumann, Zest and Bien-Air.

Thursday, April 30

DR . E D M O N D B E D R O S S I A N

12 pm EST/9 AM PT: Prevention and management of complications associated with the zygoma implant

Dr. Edmond Bedrossian is a Diplomate of the American Board of Oral and Maxillofacial Surgery as well as a Honorary Member of the American College of Prosthodontists. He is a Professor and Director of implant surgical training, Department of Oral and Maxillofacial Surgery, at the University of the Pacific School of Dentistry as well as Alameda Medical Center; combining private practice with academics. His academic positions include; Examiner, American Board of Oral and maxillofacial Surgery. He has authored multiple articles and chapters on the various uses of the Zygomatic implant, bone grafting and treatment planning implant dentistry. He has also authored the textbook; "Implant treatment planning for the edentulous patient", Forewarded by Professor Brånemark. Dr Bedrossian is on the Editorial review board of: The International Journal of Oral & Maxillofacial Implants, The Journal of Oral & Maxillofacial Surgery, and The Clinical Implant Dentistry and Related Research.

DR . R O O Z K H O S R A V I

1 pm EST/10 AM PT: Together for comprehensive dental care: Orthodontic-restorative interdisciplinary treatment

Dr. Rooz Khosravi is a diplomate of the American Board of Orthodontics and a clinical assistant professor of orthodontics at the School of Dentistry, University of Washington. Dr. Rooz practices orthodontics at Porth (Personalized Orthodontics), boutique clinics located in Sammamish and Bellevue, Washington. His practice expertise includes clear aligner therapy for adults, teens and children, using custom Porth aligners. In addition to his academic and clinical excellence he brings his knowledge of and passion for using technology to Porth, where he uses 3-D scanning and printing in every treatment plan. Dr. Rooz lectures nationally and internationally on digital technology, specifically on the implementation of in-house aligner systems. He is an expert in aligner therapy and is an orthodontist-scientist consultant at leading companies in this field. He offers courses on how to implement the latest digital technology in the daily practice of orthodontics.

Friday, May 1

DR . A H M E D S A L M A N

12 pm EST/9 AM PT: Contemporary endodontics: Beyond the white lines

Dr. Ahmed Salman was born and raised in Baghdad, Iraq and received a Bachelor of Dental Surgery (B.D.S) from University of Baghdad. He completed a one-year general practice residency at Cairo University Hospital in Egypt. After practicing as a general dentist, he obtained a second dental degree (D.D.S) from the University of Colorado School of Dental Medicine. After practicing in the Denver metro area as a general dentist his passion towards Endodontics lead him to pursue a postgraduate training at the University of the Pacific Dugoni School of Dentistry in San Francisco, CA. He received a certificate of specialty in Endodontics and a Master of Science in Dentistry (M.S.D). During his residency, Dr. Salman received the postgraduate OKU clinical excellence day award for his 1st place clinical presentation. Dr. Salman is a Diplomate of the American Board of Endodontics and is an active member of the American Dental Association, the American Association of Endodontists, the Colorado Dental Association and the Metropolitan Denver Dental Society.

DR . M A R C H A Y A S H I

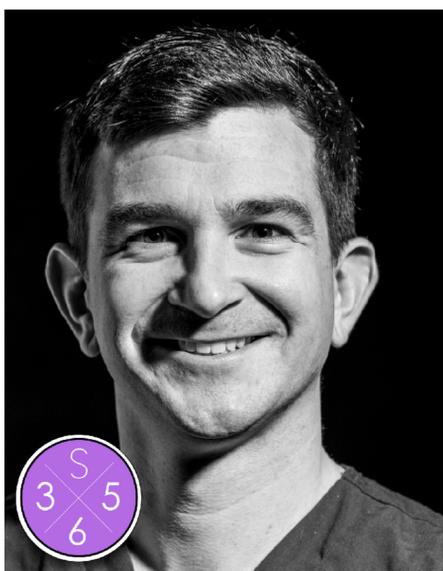

1 pm EST/10 AM PT: Breaking down your bonding agents

Dr. Marc Hayashi graduated from the University of Pennsylvania School of Dental Medicine in 2009. He then completed two years of GPR/hospital dentistry training in Los Angeles, at both USC and the Sepulveda VA. After working in private practice in Seattle for a couple years, he then moved back to LA, where he now teaches at the UCLA School of Dentistry, serving as the Vice Chair of the Section of Restorative Dentistry. During his time at UCLA, he also attended Pepperdine University, where he earned his MBA from the Graziadio Business School. When not teaching in the clinics or lecture halls, he is actively treating patients at the faculty group dental practice on campus.

B R A N D O N W A L K E R

2 pm EST/11 AM PT: Modern direct restorative solutions for anterior aesthetic dilemmas

Brandon Walker is currently a fourth year dental student at the University of Washington School of Dentistry. He proudly served in the United States Marine Corps from 2005-2015, and earned a B.S. in Public Health from American Military University. He is an active member of the Academy of General Dentistry, Academy of Operative Dentistry, and American College of Prosthodontics.
